

Switch

The Cisco C897VAW-E-K9 comes with a integrated 8 port 1GB switch.

The server will use min. one port of these.

If you need to connect more than 7 network devices, you will need a additional switch.

It should support:

- SNMPv1, v2c, and v3
- IEEE 802.1Q VLAN
- IEEE 802.1X and RADIUS Port security (IEEE 802.1X and MAC)
- LLDP
- Syslog

As the cost effectives model we recommend a HP 1920 model.

<http://www8.hp.com/us/en/products/networking-switches/product-detail.html?oid=7399514#!tab=models>

Available as 8/16/24/48 port models with/without PoE they should meet all your needs.

Please choose a model that will meet your requirements.
